

Equivalencies to GCSE English Language and Mathematics C / 4 grade for entry to Initial Teacher Training Education

All ITE programmes in Wales require applicants to have a minimum C / 4 grade or equivalent in English Language and Mathematics at GCSE to be eligible to apply for entry to ITE courses. For courses of Primary and Physical Education ITE, a minimum C / 4 grade in GCSE Science is also required.

Both Mathematics and Mathematics - Numeracy at grade C will be accepted as equivalent to Maths.

Notes:

- Key Skills and Essential Skills qualifications in Application of Number and Communication are not sufficient to meet the requirements for entry to ITE.
- A GCSE Statistics Grade C is not an acceptable equivalent qualification.

Equivalent overseas qualifications

- The European Commission of Consumer, Trade, and Industry Services (ECCTIS) provides guidance on whether an overseas qualification is comparable in standard to a given UK qualification but decisions about suitability for entry to ITE courses remain at the discretion of ITE providers.
- There is a requirement that applicants are able to demonstrate equivalent qualifications at a level above C grade in GCSE English Language and Mathematics.
